

# Effective Communication

Social media can be a wonderful communication tool, but it's not an effective way to share questions or concerns about students, staff members, or the school district. Often, it can actually make situations worse. When you have a question, concern or feedback, please follow these steps:

## Regarding a Student

Please first contact your child's teacher. Many questions and challenges can be resolved in the classroom.

If you have already worked with your child's teacher and you continue to have a concern, please contact the school principal.

## School-Related Issue

Please contact your school's main office with questions or to set an appointment with the principal.

If you have already worked with the school principal and you continue to have a concern, please contact the District Office for assistance.

## District-Related Issue

Contact the District Office at 435-645-5600, or email the school district [here](#).

The Board of Education welcomes community involvement & feedback. In most cases board members will refer you to the District Office to resolve your concern.
